

Brief Profile of Reign Education

Reign Education was established in 2020 and is headquartered in Zhengzhou City, China. It is the Study Abroad Program under Shenzhen Reign Emate Technology Service Co., Ltd. Reign Education focuses on applications for studying in Malaysia, including Undergraduate, Master's, and Ph.D., and has helped many students to be successfully admitted to universities in Malaysia. The quality of the Reign education program has been fully recognized at home and abroad.

The business scope of Reign Education covers a wide range, including but not limited to study abroad planning and admission application, education background improvement, English language training, Visa service, career planning, dissertation guidance, journal publication, academic qualifications and other academic services. To build a professional service team for the studying abroad program, most of our staff hold master's and Ph.D. degrees and they graduated from universities in the United States, the United Kingdom, Hong Kong, Malaysia, Philippines and other countries. Reign Education is committed to providing students with scientific guidance so that students can easily enjoy a one-stop service for studying abroad.

Reign Education complies with the opening and transformation of Chinese education and is committed to cultivating international talents to conform to transnational development from an international perspective. It not only aims to cultivate elites suitable for Chinese society, but also to cultivate international talents suitable for the future. To respond to the call of the Ministry of Education's "Belt and Road Initiative", the strategic cooperation with Zhengzhou University, the School of Management of Henan University of Technology, Henan Normal University, and other universities on the master and doctoral degree program have been reached, to jointly launch the "the Belt and Road Initiative" international education to cultivate more outstanding international talents for the "One Belt One Road" construction.

Vision

To be the best education-exchange emissary between China and Malaysia.

Mission

To create a scientific study-abroad path for students and cultivate international talents for the world.
